The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system the only sure and quick way to drive it out is to purify and enrich the blood.

These simple facts are well

These simple facts are well known, and the highest medical authorities agree that nothing but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause head-

ache, and are otherwise injurious.

Gents:—Upon the recommendation of a friend I tried Bnown's Iron BITTERS as a tonic and restorative for my daughter, whom I was thoroughly convinced was wasting away with Consumption. Having lost three daughters by the terrible disease, under the care of eminent physicians, I was loth to believe that anything could arrest the progress of the disease, but, to my great surprise, before my daughter had taken one bottle of Bnown's Iron BitTERS, she began to mendand now is quite restored to former health. A fifth daughter began to show signs of Consumption, and when the physician was consulted he quickly said "Tonics were required," and when informed that he clefe sister was taking Bnown's Iron BITTERS, responded "that is a good tonic, take fit."

BROWN'S IRON BITTERS effectual y cures Dyspepsia, Indigestion and Weakness, and renders the greatest elief and benefit to persons suffering rom such wasting diseases as Con-umption, Kidney Complaints, etc.

Fatal Accident in a Mine-One Man Killed and Another Injured.

TUSCARORA, May 6. A fatal occident accurred at the Navajo mine about 8 o'clock this morning, whereby a man named A. L. Stark lost his life and another named Jake Eggars was seriously hurt. As near as can be learned, the men were on the top and signaled the engineer that they wished to be lowered to the bottom of the shaft. Both cages were on top at the time-one secured by a clutch and the other free. The men got on the former and the engineer commenced lowering them, at the same time letting the empty cage down with the brake When at a distance of 350 feet from the bottom the unloaded cage got away from the engineer and started down with terrible velocity. The engineer, becoming excited, endeavored to throw in the clutch, and it is presumed that in leaving to do so he must have thrown out the clutch holding the cage on which the men were standing. or else it accidentally slipped out, allowing the cage to run down with even greater speed than the other, striking the bottom of the shaft with terrible force, demolishing the cage and fatally injuring Stark, who only lived four hours after the accident. The extent of Eggar's injuries is unknown. Three men who were working in the shaft heard the cage coming down and stepped aside just in time to save their

### SETTLES THAT Brought Into Competition With the World the Best Carries

At the great Centennial Exhibition of 1878 the leading products of all the branches of the world's industries were assembled at Philadelphia. To carry off a assembled at Philadelphia. To carry off a prize in the face of that tremendous com-petition was a task of no ordinary difficul-ty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest variety, rep-resenting the skill and the profoundest study of the age, and it may be of vital importance to you personally to know that the highest and only medal given to rubber porous plasters was awarded to the manufacturers of BENSON'S CAP-CINE POROUS PLASTER, by the follow-ingiury: DR. C. B. WHITE, M. D., New Orleans.

ERNEST FLEISCH, M. D., Austria.

The decision was afterward confirmed by the medical jury at the last Paris Exposition. Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and Europe, quickly threw aside the old, slow-acting plasters they had been using and adopted Benson's in their regular practice. That physicians and surgeons of the broadest reputation did this distinctly proves the intrinsic merit of the article.

It is not more than just to add that the average physician of to-day is not dominated by the prejudices which retarded the progress and modified the successes of his predecessors of not more than twenty-five years ago. He accepts hints from all quarters and endorsee and adopts demonstrated healing agents wherever he finds them.

#### FINE BEEF.

A Lot of First-Class Animals From Sierra Valley. The finest lot of beef cattle ever

sent out of Sierra valley was driven out last Wednesday by Messrs. Strang & Humphrey, who purchased them of James Miller. The chased them of James Miller. The band consisted of 117 2-year-old steers, which averaged 580 pounds each. The price paid was nine cents. The cattle were considered a fancy lot, says the Leader, and were destined for the lower market. Miller says that last Fall those cattle were so poor that he was ashamed of their appearance. Good Sierra valley hay is what brought them out. This shipment about cleans out the beef cattle from the valley. Outside of about 150 head belonging to George Humphrey, belonging to George Humphrey, there is none to speak of left. Neither is there much hay, and by the time the new crop is in the market, it will also be scarce.

Another Sierra County Saw-Mill The Sierra Valley Leader says: Jack Foulks, better known as the Mayor of Verdi, is engaged in tearing down his saw-mill near that place and will erect it at what is known as the old Ingram station, just west of Crystal Peak on the Hennessee Pass road. He intends to try the experiment of a steam road wagon, with which he will haul his logs to the mill, and also convey the lumber to the railroad. The location selected for his mill-site is said to be a good one.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight amarting or burning sensation and a weakening of the system in a manner the patient cannot account to. On examining the urinary deposits a ropy sediment will often be found, and some small particles of albuman will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who lie of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs. Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation Free. Thorough examination and advice \$5.
